REMARKS/ARGUMENTS

The present Supplemental Amendment is made to correct certain clerical errors in the previously submitted amendment of 11/08/2004. The Examiner's telephone call in this regard is appreciated.

A new Power of Attorney to the present law firm is included herewith.

By this Amendment, claim 34 has been cancelled and replaced by new claim 35 with a correct structure. Support for this structure may be found on page 27 of the specification.

Applicants by their attorney have previously elected Group I, consisting of claims 1-13, 15-23, 26 and 27, with traverse. Presumably claims 33 and 35 would be included in Group I as well. As the ultimate species, applicants selected compound E5A 29, shown bridging the pages 26 and 27. The generic formula is found in previously submitted claim 33 and the species in newly submitted claim 35.

Conclusion

The Examiner is respectfully requested to enter the present amendment prior to an action on the merits in this case. If the Examiner believes that the prosecution of the subject application can be expedited by a telephonic interview, the Examiner is requested to
